

# one to one peace project

This grassroots project was born out of the knowledge that the people of this world are peace loving, caring people, who don't want conflict or war. Perhaps we can reach out to each other and make connections.

Let's make friends, one person at a time!

---

## **Promote peace and understanding!**

Put together a package or two at home, at school, with family, friends; at your club meetings or religious organizations.

*See page two for instructions.*

## **Distribute your messages around the world!**

Send your messages to people around the world, to your government leaders & representatives, schools, hospitals, sister city projects, peace organizations... anyone!
